

Knowing where my money makes an impact

Discover the bank which makes sense.

Are you aware of what your money does when it is in the bank? As a GLS Bank customer you are! It is exclusively at work in sustainable businesses and projects.

Since 1974 the Bank has formed a link between people who invest money and people who need money to set up socially and ecologically meaningful businesses and projects.

As the first social and ecological universal bank in the world, our focus is on people and the environment. Economic profit comes as a consequence of our forward-looking activities and the conscious and targeted use of money.

It makes sense!

You benefit from customary market conditions. You can withdraw cash without charge at cash machines of the Volks- und Raiffeisenbanken, the second largest network of cash machines in Germany.

Transparent and fair

You wish to see whether we live up to our promises? That is why we not only disclose the principles on which our business activities are based but we also publish the names of all businesses which we finance. In other words, all the business loans which become possible through the money you invest. We are also transparent about the Bank's own non-speculative investments. Loans to private persons are, of course, not disclosed.

The GLS Bank looks at your requirements on the whole and gives you fair support because our advisors do not either work on commission or receive bonuses.

My bank – a safe bank

The GLS Bank belongs to its gradually increasing 30 000 members. As a cooperative bank and a member of the Bundesverband der Deutschen Volks- und Raiffeisenbanken your money is 100 percent safe and fully protected.

Knowing where my money makes an impact

The GLS Bank offers you many different possibilities to invest your money so that it makes sense.
